PAINFUL CORNS

Loosen—Lift Out

A little known Japanese herb, the discovery of an eminent German scientist (Dr. Stickle) instantly soothes the corn, callus or wart, then loosens it so that shortly you can lift it right out.

You will also find "Corn Fly Foot Bath Powder" a boon for sore, tired or perspiring feet.

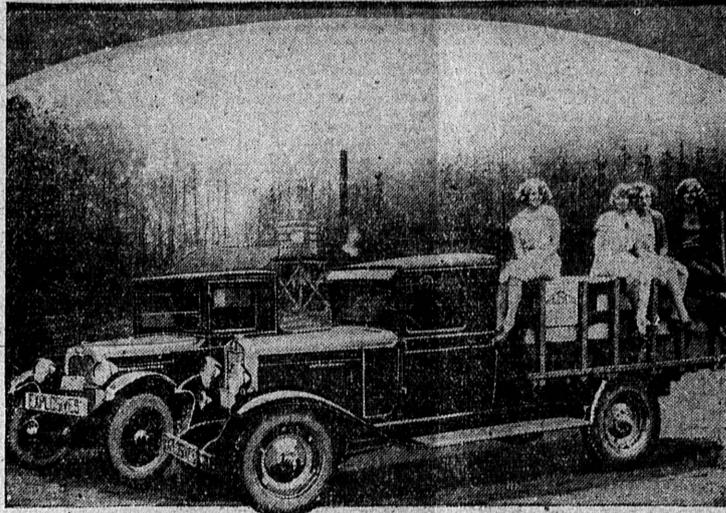

To Teach Real Estate Thru Mails

The Correspondence Study Department of the University of Southern California, Los Angeles, which offers home study courses in general real estate, the appraisal of real estate, and real estate conveyancing, has the unique distinction of being the only department of its kind that is devoted to a single field of study applied to a single state, according to Mrs. S. H. VanDusen, who is in charge of the work.

OLD CLOCK KEEPS TIME

BROKEN BOW, Okla., (UP)—Joe Ross, Eagletown, has a clock in constant use since 1780, the year of the signing of the Declaration of Independence. It still keeps perfect time.

They Travel On High

These young ladies do not seem to be worried, although they are seated on a truck-load of dynamite and blasting powder. They are employees of the West Coast Powder Company, a Northwest concern, located near Everett, Washington.

Mr. and Mrs. Robert Lewellen and son Bobbie, 1307 Madrid, and Mr. and Mrs. Johnny Trigg of Los Angeles, spent the weekend at Big Pines, enjoying the winter carnival.

Hawkins Organization Plans Big Program for Next Year

"It is said continuously by those optimistic and big fellows of business that prosperity is just ahead." Such was the keynote of the address made by Mr. I. H. Hawkins to his managers and co-workers at the annual supper meeting at Earl's Cafe in Torrance recently.

Mr. Hawkins authorized a general salary increase to the managers and his various store units.

It is recalled that at the annual meeting at the close of the year 1928, the founder of the Hawkins organization also made certain claims when lining up the procedure for 1929, and the proof of the pudding was in evidence at this meeting when checks for a 2% dividend was passed out among the employees who had funds deposited with the company, which earnings were over and above the 5% interest checks that were received just a week previous by these same employees.

In his talk to his fellow workers, Mr. Hawkins recalled in reminiscence the older days, fifteen years ago when he came to California to enter the general merchandise field. Conditions then permitted one to make purchases of job lots, samples and bankrupt stocks at figures that would enable the merchant engaged in this particular business, to offer such commodities to his customers at comparatively low prices and at the same time afford the dealer a reasonable profit.

The organization has shown substantial gains during its comparative short period of activity, and, though still a young enterprise, its original founder is joined by his entire staff in his determination to make of 1930 an even more profitable year. There are at present eight retail units located at Inglewood, Bakersfield, Compton, Dinuba, Hanford, Porterville, Redondo Beach and Torrance, California, and a wholesale and distributing point at 215 East Ninth street, in the Los Angeles Building, Los Angeles, with a maintained buying office at room 1023 of the same building.

Of the forty-five members of the I. H. Hawkins Company organization, those present at this year's gathering were: Messrs. M. W. Combs, R. J. Collette, R. L. Hawkins, T. L. Hawkins, C. S. McKinney, C. S. Anderson, Chas. Rodriguez, Wilfred Tidland, Elmer Palmquist, G. R. Gilmore, A. C. Douglas, Ben Orenstein, A. L. Boney, and Mesdames Holmes, Grimes, Templeton, Holman, Moore, Ruppert, Williams, Hawk, Donnelly, Johnston, Griffin, Seely and Lindemann. Besides Mr. and Mrs. I. H. Hawkins, there were present as honored guests of the occasion, his father and mother, Mr. and Mrs. D. H. Hawkins, and also their son and daughter Horace and Lola Mae.

More Can Openers Used, Quiz Shows

Housewives Spend Most with the Grocer and Department Stores

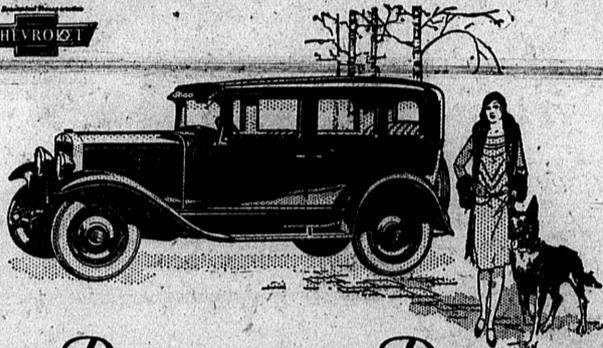

CHICAGO, (UP)—More housewives are using can openers than ever before, and the whole family is buying about three times as much on credit as they are willing to pay cash for, according to a report compiled by the National Retail Credit Association.

Twelve cents out of every dollar spent on retail purchases in 1929 went to the grocer and the delicatessen dealer, the report said. Only the department stores were ahead of them, 15 cents going for purchases of this nature. Drug stores got four cents; restaurants seven cents; hardware stores two cents; electrical stores a half-cent and book, paper and stationery dealers, one-half cent.

Open book credit ran as high as \$15,000,000,000 for the country during an average 70-day period. In an attempt to save the consumer \$100,000,000 yearly, the association is launching a \$7,000,000 advertising campaign to educate the public to the advantage of credit and the economic importance of meeting bills promptly.

HIGH SAFETY RECORD JOHNSTOWN, Pa., (UP)—In celebration of a year's operation without a lost time accident, 2 foremen of the Franklin Coke Plant of the Bethlehem Steel Corporation assembled here for a banquet. On January 1, the foremen rounded out a full year in which none of the men employed in their departments was injured seriously enough to lose time.

Greater Beauty - Finer Performance

Never has a Chevrolet car won greater praise for its appearance than the new Chevrolet Six. Its new Fisher bodies reveal in every detail the artistry that has made the Fisher name famous throughout the motor car world.

In addition to its new beauty, the new Chevrolet Six represents a remarkable advance in every phase of performance. Its improved six-cylinder valve-in-head engine has been increased to 50 horsepower—giving faster acceleration, and greater reserve power.
